

2025 Block of the Month Quilt Challenge

Join us for an 8- or 12-month Block of the month quilt challenge. You can access the patterns early to have your quilt completed for the June 2026 year end show and tell. Or pick up the patterns over the 12 months and have yours completed for the September 2026 new guild year. There is incentive to complete yours and have it ready for the June meeting (note below.)

The quilt pulls sections from 12 quilts that have been shared to members by the MQG. This project will build skills for newer quilters with progressively harder techniques each month. Each month will include the original pattern that can also be located on the MQG member area and any modifications to fit in the BOM.

Fabric requirements: There might be a guild prize at the end for the scrappiest version so feel free to take some time to organize the scrap bin and shelf of uncommitted fabrics in your stash.

If scrappy isn't your vibe, plan on 6-7 yards total. The blocks are in six value levels from white to black. Another option is two layer cakes and three yards of a background fabric.

The finished quilt is 72" x 84"

Credit for the layout is to: Megan Patent-Nygren
