

2025 BOM Quilt Challenge

October: Meeting of the Geese

Pattern by: Sylvia Schaefer, Flying Parrot Quilts

Finished size of this month's component is: 36.5" x 15.5"

You will construct section E of the pattern, according to the provided instructions. Note, it has been rotated 180 degrees in the final layout.

For our 2025 Block of the Month Challenge, we will be making selected parts of quilts featured by the Modern Quilt Guild. Each month's instructions will include the featured quilt, the component that needs to be made, modifications for the BOM, and any setting strips needed, and the finished piece size. We have decided for simplicity we will be providing you with the pattern from MQG. Members will end the year with an amazing quilt and for some new skills.

The finished quilt is 72" x 84"
