

## 2025 BOM Quilt Challenge

### February – Slice of Happiness

Pattern by: Stacey Day

Finished size for this month's component is 8.5" x 36.5"

You will construct 4 of the 3/4 circle blocks using the templates and instructions provided in the pattern.

NOTE: Instead of nesting two of the units together, replace the fourth quarter with a solid square in the background fabric. Each block pair will have a setting strip measuring 8.5" x 1.875" as a spacer between the blocks.

Make sure the templates print to the correct size, Measure the template pieces.

For our 2025 Block of the Month Challenge, we will be making selected parts of quilts featured by the Modern Quilt Guild. Each month's instructions will include the featured quilt, the component that needs to be made, modifications for the BOM, and any setting strips needed, and the finished piece size. We have decided for simplicity we will be providing you with the pattern from MQG. Members will end the year with an amazing quilt and for some new skills.

The finished quilt is 72" x 84"
