

2025 BOM Quilt Challenge

For our 2025 Block of the Month Challenge, we will be making selected parts of quilts featured by the Modern Quilt Guild. Each month's instructions will include the featured quilt, the component that needs to be made, modifications for the BOM, and any setting strips needed, and the finished piece size. We have decided for simplicity we will be providing you with the pattern from MQG. Members will end the year with an amazing quilt and for some new skills.

The finished quilt is 72" x 84"

September – Party Streamers

Pattern by: Christopher Thompson, The Tattooed Quilter

Finished size for this month's component is 72.5" x 12.5"

This month's challenge takes the somewhat random streamers set in a background color to make a banner across the top of our quilt. The finished panel is 12.5" tall. It's best to build the strips yourself, the pattern instructions cut strips too long that you will just cut up. Cut 36 color strips and 36 background strips to create panel like below and sew an additional 2 background strips on each end.
